THE **JONSSON** WAY

Our story of purpose has seen us evolve into a revolutionary workwear business, supplying quality, strong and durable garments to local and international markets. We want to empower all workers to perform to the best of their ability every day. We believe in excellent service and products of the highest quality; manufacturing and distributing garments ourselves. This ensures we maintain excellent quality, hold sufficient stock and offer short lead times.

Our manufacturing facilities are based in Lesotho and Mauritius and produce around 40 000 garments a day. These garments are distributed through our state-of-the-art Distribution Centre based in Johannesburg, which has the capacity to move 20 million pieces annually. Our 8000m² raw material warehouse based in Durban allows us to efficiently supply raw materials to our various manufacturing plants and further reduce our turnaround times. Although we're growing rapidly, our journey has just begun.

OUR SALES CHANNELS

STORES ZONES STOCKISTS

Our workwear is made available to our wearers through carefully selected **distributors** across Africa. Whatever your needs may be, we offer a complete solution to any workforce through our wide range of products. Our products are readily available to purchase at our **Jonsson Workwear Stores**, **Jonsson Workwear Zones** and **Jonsson Workwear Stockists** across southern Africa.

The **Jonsson Workwear Stores** are iconic large retail stores that offer the ultimate gateway into the **Jonsson Workwear** world. These stores supply the full **Jonsson** range as well as a wide array of PPE for different industries. Every store has friendly, knowledgeable product experts and its own customising facility.

The **Jonsson Workwear Zones** are based on the concept of a "store within a store". These Zones are dedicated **Jonsson** retail spaces, stocking selected products but offering consumers access to the full range.

Jonsson Workwear Stockists carry a range of industry specific products.

CORPORATE WORKWEAR **SOLUTIONS**

We are privileged to be able to provide workwear solutions to some of the most iconic large companies in southern Africa.

Our offering includes corporate workwear, as well as custom made solutions specific to customers' needs.

Building strong relationships with our corporate customers ensures that we can provide the perfect workwear solution to suit individual working environments. We provide a one stop solution which includes conceptualising, designing and manufacturing.

We pack the garments individually by wearer, and distribute them to each business site.

Our dedicated sales advisors and customer care team offer strong support and efficient service throughout the process.

ICONIC **RETAIL STORES**

Just like many of our hard-working, loyal customers, we are proud of our workwear. That is why we have revolutionised the African workwear landscape by creating iconic retail stores that create the right environment for you to see, feel and try on our workwear.

Whatever your craft, profession, industry or passion, we promise to give you an amazing experience. A large range of carefully designed garments, a rainbow of colours to suit any business, on-site customising options and a team of experts ready to inspire and delight you – this is our workwear world.

- Free delivery on all online orders within South Africa.
- Our embroidery and taping service is available.

OPEN YOUR 30 DAY BUSINESS **ACCOUNT**

Enquire in-store and open your business account today to start ordering with convenience and ease.

WHY OPEN A BUSINESS ACCOUNT:

- Application process is quick and easy.
- Fast account approval and activation.
- Place orders without having to make prior payment.
- Place your order online and view your order history.
- Direct from our warehouse, straight to your doorstep.
- Speedy delivery.

MAKE AN
IMPRESSION

CUSTOMISE YOUR **WORKWEAR**

ON-SITE EMBROIDERY & REFLECTIVE TAPE APPLICATION

A carefully customised uniform will inspire and motivate your team, making them proud to display your company name for the world to see.

We offer a unique, on-site, customised embroidery and reflective tape facility, where you can brand your workwear with your company logo or message.

Should your industry require high visibility for the safety of your employees, we are able to apply **JW REFLECT** reflective or fluorescent tape to any of our garments to ensure your staff are noticed and therefore safe.

Using state-of-the-art embroidery machines and strong, colour-fast and durable threads, we can guarantee you top quality results with every embroidered garment by our skilled machinists.

EMBROIDERY REQUIREMENTS

- Your company logo (preferably a jpeg file) with your Pantone colour reference.
- The size and positioning of your logo(s).
- The quantity you require and what products you will be branding.
- Your final sign off on our customisation approval form.

WHAT SOME OF OUR CUSTOMERS HAD TO SAY

"Awesome service from the embroidery staff at the eMalahleni store."

- Hilton van As - Exclusive Comforts

"Excellent service, helpful staff, great coffee and managed to get our company logo embroidery on the shirts in the store. Thanks Jacques for your great customer service."

- Wayne Potter

"Awesome staff and service. Excellent quality gear and embroidery is top class"

- Leigh-Anne Adams

"Fantastic service and best quality workwear. Helped us out with embroidering our uniforms at very short notice - we were so impressed!"

- Service Master

OUR ICONIC **BRAND**

We support other iconic brands that share our vision and values of integrity, hard work, peak performance and a pioneering spirit. We are proud of the relationships built over time with our influential and successful sponsorships.

Some of the brands we sponsor are **Lions Rugby**, **Cape Racing**, **Gold Circle** and **Plaas Media**.

We also proudly own the naming rights to **Jonsson Kings Park Stadium**.

PEOPLE WITH **PURPOSE**

We invest our time and effort in supporting people who live and work with purpose to create a better life for themselves and their communities. Our vision and values guide us in conducting fair and ethical business practices, looking after the communities we operate in, and protecting the environment. We support education, gender and environmental initiatives to cultivate talented future leaders, a thriving planet and a better life through the **Jonsson Foundation**.

THE JONSSON FIT

Our garments are purpose-made and specifically built for the people wearing them, therefore allowing for ideal fit and comfort.

PEN DIVISION

This functional feature found on some shirts and work jackets are designed to fit a pen or carpenter's pencil securely. This feature is either stitched or bar tacked on the left of the chest pocket.

LAPPED SEAMS

The raw edges of both sides of fabric are completely enclosed thus limiting any chance of fraying. The double or triple needle stitching holding this adds additional strength and stability to the seam.

REFLECTIVE TAPE

JW REFLECT is our exclusive reflective tape that is lightweight and flexible. It is made from microscopic glass beads that reflect the light back to the original source to ensure that your visibility is improved during low light conditions.

WOMEN'S FIT

We have designed a range of Women's workwear offering a flattering, feminine fit.

BAR TACKS

A bar tack is a small section of reinforced stitching on any stress point, which makes the garment stronger and more durable.

THE JONSSON DIFFERENCE

It is our obsession with quality, our innovative mindset and the attention that we pay to every detail that enables us to create our diverse range of strong and durable workwear products.

ADJUSTABLE CUFFS

This handy double-button feature allows the sleeve cuff to be adjusted, either tighter or looser depending on the wearer's requirements.

SAFETY POCKET

A concealed inner pocket is a practical and secure pocket on the inside of the garment, that can be used to stowaway valuables.

ZIP GUARD

This is a facing behind a zip to provide protection to the wearer and prevent any contact with the zip teeth against the skin or under garments.

TOGGLE SAFETY CORD

A toggle is attached to the side seam using **Petersham** tape, to prevent the cord from snagging.

HEAT SEALING

This is a PU tape applied to a seam to avoid water penetration through any perforation caused by the needle whilst closing the seam.

CROSS-STITCHED WITH LOOP-LOCK BUTTON ATTACHMENT

All our buttons are attached with cross-stitched sewing method and secured with a loop-lock to prevent unravelling.

WASHES

Various industrial washes are done on some of our jeans and heavy cottons, ensuring that our garments are pre-shrunk for a better fit, have a comfortable feel and a worn-in look.

SELF-FABRIC POCKET BAG

Our generous pocket bags are made from self-fabric which ensures extra strength where items are stored.

HALF ELASTICISED WAISTBAND

This design feature allows workers to move freely in any working environment and alleviates the need to wear a belt.

PRESS STUD CLOSURE

A press stud closure is a pair of interlocking discs that are used to fasten garments securely.

QUALITY PLEDGE

We are fully committed to making workwear of the highest quality and durability so that wearers are protected in the workplace, and empowered to perform at their best.

As the manufacturers of our own garments, we control and take responsibility for our quality, stock levels and lead times.

RAINPROOF

Our **Wet Weather Gear** is made from specialised rainproof fabric. Heat seal tape is applied to the sewn seams to prevent water from leaking through the seams of the garments, ensuring protection from the elements.

FLAME RETARDANT (W7)

The premium, flame retardant fabric finish used on selected garments, provides the first line of defense against electric arc and flash fire exposure. The treatment will result in the fabric self-extinguishing when the flame source is removed.

ACID RESISTANT

Our Acid Resistant garments are chemically treated to repel acid splashes, oil and water, and will not be destroyed by most chemicals.

VENTED

Our vented garments have vents under the arms and along the back yoke to assist in moderating body temperature in warm environments.

DAY / NIGHT VISIBILITY

We understand that the visibility of workers is essential in numerous working environments. The fluorescent fabric and reflective tape that we use on our High Visibility garments ensure that workers are visible in high-risk work environments.

DAY VISIBILITY

Our High Viz range uses fluorescent fabrics which are thoroughly tested to ensure workers stay visible and protected during the day.

NIGHT/ LOW LIGHT VISIBILITY

Our highly advanced, **JW REFLECT** quality reflective tape is used on our High Visibility garments, ensuring that workers are seen during low light conditions when illuminated by a light source.

ULTRAVIOLET PROTECTED

Ultraviolet Protection Factor (UPF) indicates the level of the sun's UV radiation absorbed by the fabric. All **Jonsson Workwear** garments displaying this icon are rated UPF 50+ for your ultimate protection against the harsh effects of the sun, significantly reducing your skins exposure to UV radiation.

QUICK REFERENCE **FEATURES**

ACID/FLAME (W8)

Our Acid Resistant and Flame Retardant garments have been chemically treated to offer thermal protection as well as repel acid splashes, oil and water.

STRETCH

STRETCH ACTION FIT

Our stretch garments consist of 3% spandex, for ease of movement and flexibility throughout the work day.

AQUAGUARD®

AQUAGUARD ZIP

The **AquaGuard** zip is water repellent with a polyurethane laminated tape to ensure the wearer stays dry.

TRIPLE STITCH GUARANTEE

We triple stitch the stress seams on selected garments, allowing for ultimate endurance and durability in the workplace.

MOISTURE MANAGEMENT

A moisture management finish is a premium finish on fabrics which wicks away moisture from the body through the fabric, keeping the wearer dry and comfortable.

STEEL TOE CAP

Our safety footwear has a protective toe cap which protects the foot from falling objects or compression and is an essential in many industries.

100% COTTON

Cotton is a natural fibre, ensuring that the wearer is comfortable, cool and dry throughout the day. Our 100% cotton garments are easy to care for and are durable.

Icons are used as a simple, illustrative guide to the components within our workwear range.

These icons provide you with the key benefits for each product, and are used to represent various qualities unique to the product.

DRY CLEANING

 Dry Clean

 Do Not Dry Clean

Your **Jonsson** garments are designed to withstand the elements in many different environments, however they will last longer if they're well taken care of. We encourage you to follow the wash care on each garment label. Generally, we recommend that you wash your garments in cold water and hang them inside out to prevent fading. Cotton is made to fade, so the best way to hang 100% cotton garments, is out of direct sunlight. It is preferable to not tumble dry your garments as this may cause shrinkage and fading. Remember to wash dark and light colours separately to avoid the colours mixing.

PRODUCT GUIDE

**WORK
JACKETS &
TROUSERS**

HIGH PERFORMANCE

C77SERIES

WORK JACKET AND TROUSERS

JONSSON[®]
WORKWEAR

The **C77 Series** is unrivalled high performance workwear, created for hard-working people everywhere. We're inspired by the people who have played an integral role in forming the backbone of our economy through their contribution across all industries. The **C77 Series** high performance work jacket and trousers are made from **VERSATEX**, our special polycotton twill that is super durable, comfortable and holds its colour longer.

The work jacket has 5 pockets - 4 extra large front pockets and a concealed inner safety chest pocket. It also features side slits for ease of movement and a longer YKK zip for a more comfortable fit.

VERSATEX WORK JACKET

/CJ77J

FABRIC: VERSATEX 65% Polyester; 35% Cotton Twill

WEIGHT: 230 gm²

SIZES: XS S M L XL 2XL 3XL 4XL 5XL

COLOURS: Royal, Orange, Black, Olive, Red, Navy, Khaki, White, Bottle, Grey, Emerald, Charcoal

FEATURES: Chest pocket with hook and loop closure / Chest pocket with pen division / Concealed inner chest pocket / Large front pockets for secure storage / Concealed YKK zip / Side slits for ease of movement / Bar tacks on stress points for extra strength

The work trousers have 5 pockets - 2 in the front, 2 in the back and a concealed inner safety pocket. The work trousers fit comfortably, with a longer back and front rise, as well as a minimum 17cm length zip. For strength, we have placed 30 bar tacks on critical stress points and triple needle lapped seams for extra strength.

SECURITY SHIRTS

The military, paramedic and security industries are made up of heroic people who have dedicated their lives to helping others. Inspired by their commitment to serving others and the purpose with which they work, we have developed a range that celebrates their strength and courage.

We believe that people should be clothed in good quality functional clothing to ensure their comfort and productivity in the workplace. For this reason, we have used our special **VERSATEX**® 65/35 polycotton twill fabric on these garments.

HIGH VIZ

REFLECT AND PROTECT

JW REFLECT™ 0712**FIRST QUALITY REFLECTIVE TAPE**

JW REFLECT 0712 is made with a polycotton backing, this tape offers durability and increased visibility and exceeds all the legal requirements.

**JW REFLECT™ 0905****FLAME RETARDANT REFLECTIVE TAPE**

JW REFLECT 0905 is a fire retardant reflective material that meets the requirement for heat resistance therefore making it ideal for use on flame retardant garments to enhance visibility in low light conditions.

**JW REFLECT™ 1204****REFLECTIVE TWO TONE TAPE**

JW REFLECT 1204 is a twin trim tape consisting of a combination of two separate materials: a substrate layer of 50mm wide woven 100% Polyester Fluorescent webbing with PU Coating on reverse and a reflective layer of 18mm wide **JW REFLECT 2907** reflective tape.

**JW REFLECT™ 2907****SUPERIOR PERFORMANCE REFLECTIVE TAPE**

JW REFLECT 2907 is a premium reflective material. It is specifically constructed to look brighter and offers the highest levels of reflectivity and performance.

At **Jonsson Workwear**, we are pioneering the high visibility industry in Africa by using our exclusive range of **JW REFLECT** reflective tapes on our high visibility garments.

TECHNICAL

ACID RESISTANT AND FLAME RETARDANT WORKWEAR

Our acid resistant and flame retardant garments have been chemically treated to offer thermal protection as well as repel acid splashes, oil and water.

These garments are suitable for industries in which acid resistant or flame retardant garments should be worn, but is often used in environments where employees need to move between departments that require either of the treated garments.

This fabric is tested according to internationally used test methods, including the German Din Test, and meets the SABS I423 PART 1-1987 for performance requirements for textile fabrics of low flammability. This fabric is SABS Approved.

SABS APPROVED ACID RESISTANT AND FLAME RETARDANT WORK JACKET /SASCONJKT

FABRIC: 100% Cotton D59 W8 Finish
WEIGHT: 270 gm²
SIZES: 82 87 92 97 102 107 112 117 122 127 132 137

COLOURS: Navy

FEATURES: Constructed from SABS approved fabric / All style features and fabric construction are to SABS specification / Chemical finish to resist heat and sparks and repel acid splashes, oil and water / 50mm JW REFLECT 0905 flame retardant reflective tape on arms for increased visibility / Zip guard to prevent heat transfer from YKK brass zip / Elasticised sleeve cuffs / Triple needle lapped seams for extra strength / Side slits for ease of movement / Bar tacks on stress points for extra strength

FLAME RETARDANT WORKWEAR

Our flame retardant garments have been chemically treated to offer thermal protection in environments that experience momentary electric arcs, flash fires or molten metal splash exposures.

This 100% cotton fabric is chemically treated to resist heat and sparks by self-extinguishing once the source of the ignition has been removed, ensuring little, if any, burn damage.

These environments include:

- Electrical Maintenance
- Oil and Gas Explorations
- Steel and Petrochemical Interaction

The Jonsson Workwear flame retardant fabric meets the requirements of the SABS I423 part 1-1987 test for performance requirements for textile fabrics of low flammability. This fabric is therefore, SABS approved.

FLAME RETARDANT REFLECTIVE WORK JACKET /CJ77JT

ACID RESISTANT WORKWEAR

Our acid resistant garments are manufactured from polyviscose. This fabric blend of polyester and viscose ensures a durable, yet comfortable wear, and is chemically treated to repel acid splashes as well as oil and water.

Acid resistant garments should be worn in industries such as:

- Chemical manufacturing
- Mining
- Plating
- Printing
- Metal processing
- Paper making

THE ACID RESISTANT FINISH IS TESTED AND COMPLIES TO **EN 14325** TO ENSURE COMPLIANCE WITH ACCEPTABLE SAFETY STANDARDS.

HOSPITALITY

Our luxury chef jacket is made from 100% lightweight cotton which not only helps keep you cool in a heated kitchen but is also extremely comfortable and allows for breathability. The jacket utilises mesh vent technology with 100% cotton mesh under the arms and a full mesh vent in the back of the garment allowing for air flow and ventilation.

This elegant double-breasted jacket has an angular styled button-down front and a subtle self-colour **Jonsson** embroidery on the conveniently placed sleeve thermometer pocket. Available in both a men's and women's fit we have ensured comfort and ease of movement for all body shapes keeping you looking professional at all times.

CE

GUMBOOT CARE

Foot hygiene is of particular importance when wearing gumboots. This is because sweat cannot be absorbed by PVC and when heat and sweat combine, germs and bacteria form rapidly.

ROUTINE CARE:

THE INTERIOR

The polyester inner sock lining of the Jonsson Workwear Gumboot allows for easy cleaning and quick drying. A mild disinfectant can be used in the interior of the gumboot, but it must be rinsed thoroughly and left to dry. The innersole may be taken out, and once loose dirt is removed, it can be washed with mild soap and water and left out to dry.

THE EXTERIOR

The outside of the gumboot can be washed with mild soap and water. Chemicals and solvents should never be used, as these will cause the gumboot to become brittle and crack.

THE TREAD

To remove soil build up in the tread pattern of the sole, use mild soap, water and a scrubbing brush.

IMPORTANT!

NEVER use heat to accelerate the drying process.

FOOTWEAR ACCESSORIES

ALL-DAY COMFORT

ANKLET SOCKS /ASOCK

FABRIC: 60% Cotton, 38% Polyamide, 2% Elastane

SIZES: 4 - 7 8 - 12

COLOURS: Black, Fatigue, Khaki, Navy, Grey

FEATURES: Antibacterial treated to prevent development of foot fungus and odour / Extra fine toe seam for added comfort / Reinforced heel and toe for durability / Half cushioned for wearer comfort / Elastic ankle band hugs sock to your foot and prevents slipping / High cotton content for all-day comfort

LOW CUT SOCKS /LSOCK

FABRIC: 60% Cotton, 38% Polyamide, 2% Elastane

SIZES: 4 - 7 8 - 12

COLOURS: Black, Fatigue, White, Khaki, Navy, Grey

FEATURES: Antibacterial treated to prevent development of foot fungus and odour / Extra fine toe seam for added comfort / Reinforced heel and toe for durability / Half cushioned for wearer comfort / Elastic ankle band hugs sock to your foot and prevents slipping / High cotton content for all-day comfort

RIBBED SOCKS /RSOCK

FABRIC: 60% Cotton / 28% Acrylic / 12% Nylon

SIZES: One Size Fits All

COLOURS: Brown Mélange, Royal, Maroon, Charcoal Mélange, Black, Khaki Mélange, Deep Red, Sky Blue, Navy, Olive, Airforce Blue Mélange

FEATURES: Knitted cotton rich yarn for all-day comfort / Antibacterial treated to prevent development of foot fungus and odour

GUMBOOT SOCKS /GSOCK

FABRIC: 58% Acrylic, 35% Cotton, 5% Polyester, 2% Elastane

SIZES: 8 - 11

COLOURS: Black, Bottle, Blue, Solid Black

FEATURES: Natural cotton foot for all-day comfort / Acrylic leg offers natural stretch and is quick drying / Fold over with securing tie

PU INNERSOLE /JINSL2

FABRIC: Top Layer - Cotton / Bottom - Polyurethane

SIZES: 5 6 7 8 9 10 11 12 13

COLOURS: Black

FEATURES: Pre-moulded polyurethane innersole with additional arch support / Top layer is made from a cotton that is breathable / Antibacterial and antifungal / Massage nubs stimulates blood circulation

INNERSOLE /JINSL

FABRIC: Top Layer - 100% Wool / Bottom Layer - 100% Polyester

SIZES: 5 6 7 8 9 10 11 12 13

COLOURS: Grey

FEATURES: Additional arch support and raised heel section / 5mm moulded EVA foam for extra comfort / Poron insert for extra shock absorption / Antifungal treatment / Odour resistant / Anti-static / Absorbs perspiration / Breathable

CUSTOMISE YOUR FOOTWEAR

We have carefully selected an amazing range of colourful laces for you to mix and match. Choose between thick or thin laces that come in different lengths, that best fit your shoes.

Stand out from the crowd by simply changing your shoelace colour. Match them to your garments or express your company's unique corporate colour.

COLOUR ROUND SHOE LACES /JCLACE1 AND COLOUR ROUND BOOT LACES /JCLACE2

FABRIC: 100% Polyester
LENGTH: Shoe: 60cm
Boot: 110cm
COLOURS: Red, Orange, Yellow, Green, Blue, Pink
FEATURES: Sealed ends to avoid fraying / Hardwearing to secure tight hold on shoe and boots / Extremely durable polyester laces

SHOE & BOOT LACES

SHOE AND BOOT LACES /JSLACE

FABRIC: 100% Polyester
LENGTH: Shoe: 110cm
Boot: 125cm
COLOURS: Black, Brown
FEATURES: Sealed ends to avoid fraying / Hardwearing to secure tight hold on shoe and boots / Extremely durable polyester laces

FLAT BOOT LACES /JSLACE7

FABRIC: 100% Polyester
LENGTH: 120cm
COLOURS: Red
FEATURES: Sealed ends to avoid fraying / Flat hardwearing to secure tight hold on boot / Extremely durable polyester laces

ROUND BOOT LACES /JSLACE5

FABRIC: 100% Polyester
LENGTH: 120cm
COLOURS: Black, Brown
FEATURES: Sealed ends to avoid fraying / Hardwearing to secure tight hold on boot / Extremely durable polyester laces

ROUND SHOE LACES /JSLACE6

FABRIC: 100% Polyester
LENGTH: 90cm
COLOURS: Black, Brown, Olive
FEATURES: Sealed ends to avoid fraying / Hardwearing to secure tight hold on shoe / Extremely durable polyester laces

PPE

HAND PROTECTION

As a leader in workwear solutions, we place the highest demands on the products we offer our customers and have engineered a new range of hand protection to withstand the harshest working environments.

Our range of gloves complies with the highest industry standards protecting you from physical harm and mechanical risks, including abrasion resistance, blade cut resistance, tear resistance and puncture resistance.

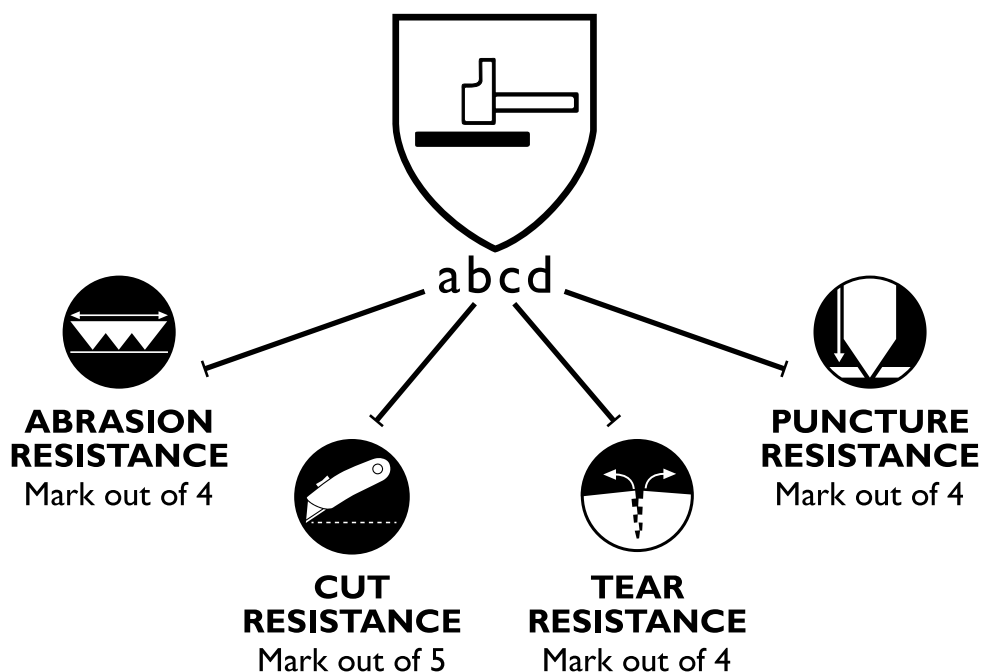

| TEST | PERFORMANCE LEVELS | | | | |
|---|--------------------|---------|---------|---------|---------|
| | Level 1 | Level 2 | Level 3 | Level 4 | Level 5 |
| a. Abrasion resistance (number of cycles) | 100 | 500 | 2000 | 8000 | - |
| b. Blade cut resistance (factor) | 1.2 | 2.5 | 5 | 10 | 20 |
| c. Tear resistance (newton) | 10 | 25 | 50 | 75 | - |
| d. Puncture resistance (newton) | 20 | 60 | 100 | 150 | - |

EN 388

PROTECTION AGAINST MECHANICAL HAZARDS

PVC

CHARACTERISTICS

- Good mechanical functions and suitable for cold temperatures
- Anti-acid and anti-alkali
- Very good resistance to abrasion, protects from grease and oil penetration
- Protection against harmful effects of chemical solvents, acid solutions, petrochemical products and other harmful substances

LEATHER

CHARACTERISTICS

- Offers excellent protection against heat and cold
- Suitable for heavy work outdoors
- Excellent for welding and high temperature environments
- Not suitable for wet/moist conditions

PU

CHARACTERISTICS

- Offers superior sensitivity and dexterity
- Great tear and abrasion resistance
- Elastic, micro-hole construction
- Very durable with good resistance to ozone corrosion
- Offers a snug fit for an exceptional sense of touch and outstanding comfort

LATEX

CHARACTERISTICS

- Soft, elastic, natural rubber
- Offers strong grip, dexterity, good abrasion resistance, puncture-resistance and overall durability
- High elasticity and exceptional grip capabilities compared to Nitrile gloves
- Chemical resistance - excellent resistance against alcohols and certain ketones, but performs poorly around most hydrocarbon and organic solvents, such as gasoline and kerosene
- Can withstand high temperatures and has great tear resistance

NITRILE

CHARACTERISTICS

- Flexible material with excellent resistance to grease, oil and hydrocarbon derivatives
- Stronger than Latex and does not cause allergic reactions
- Lacks the great stretch and grip of Latex, but is prized for its strength
- Provides higher abrasion protection than Latex
- 3x more puncture resistant than Latex
- Chemical resistance - suitable for work with oil and other lubricants
- Not suitable for high temperatures

CUT RESISTANT LEVEL 5 GLOVES

JONNYMA offers maximum cut protection with minimum weight

WHAT IS JONNYMA?

- JONNYMA is a form of Ultra High Molecular Weight Polyethylene (UHMW-PE)
- UHMW-PE is one of the world's strongest and lightest fibres
- 10 times stronger than steel for reliable cut protection, whilst offering enhanced user comfort and dexterity
- CE approved to EN388, Cut Resistance level 5
- Chemical Resistance - Jonnyma fibre performs very well in dry, wet, salty and humid conditions, as well as other situations where chemicals are present
- Moisture Resistant - Jonnyma fibre floats on water and resists water absorption, which provides an extra level of protection and durability
- UV Resistance - Jonnyma fibre shows strong resistance to photo degradation when exposed to UV light, ensuring continuous high performance

JW JONNYMA CUT 5 REINFORCED NITRASANDY PALM GLOVES /30180

SIZES: 9 10

COLOURS: Black

FEATURES: 13 Gauge Jonnyma Cut Resistant level 5 shell with reinforced black nitrile palm coating / Sandy finish / High grade cut-resistance / Elastic and comfortable / Excellent grip and maximum dexterity for the most tactile of work / Ideal for handling sharp steel, glass, automotive, metal fabrication and recycling / Wrist length

NITRILE COATED GLOVES

Nitrile rubber is a co-polymer of acrylonitrile and butadiene. It offers excellent physical-hazard resistance to punctures, cuts, snags and abrasion, almost 3 times more compared to natural rubber.

Nitrile rubber has considerable resistance to oils, fuels and certain organic solvents, thus making it a good choice for handling small oily parts or metal stamping.

NITRILE FACTS

- Nitrile rubber has the lowest allergy rate of any glove material on the market. This makes them the most comfortable glove for everyday users.
- Nitrile rubber has extremely high chemical resistance, strong puncture resistance and bio hazard protection.
- Nitrile rubber is food safe and is the preferred glove material of choice for the food industry.

JW NITRILE CHEMICAL GLOVES

LATEX COATED GLOVES

Natural rubber dispersed in water is known as latex. Natural rubber has a very high elasticity compared to other glove materials, excellent cut and tear resistance, and outstanding grip and temperature

resistance. It withstands water, alcohols, and some ketones, but has poor chemical resistance against most hydrocarbon and organic solvents. It can cause allergic reactions in some people.

JW POLYESTER CRINKLE LATEX PALM GLOVES /34120

SIZES: 9 10
COLOURS: Blue

PVC GLOVES

Polyvinyl Chloride (PVC) is a thermoplastic polymer of vinyl chloride. PVC offers good abrasion resistance, but may be susceptible to punctures, cuts and snags. While it is flexible, it does not provide the tactile sensitivity associated with most rubber products.

PVC starts to soften at approximately 82°C. PVC is effective against water and most aqueous solutions, detergents, and diluted bases and acids. It only has limited chemical

resistance to organic solvents. PVC is one of the more common coatings for coated work gloves.

PVC Coated Gloves serve many industrial purposes. They are used extensively in the construction industry, oil refineries, oil exploration, and oil drilling. They are also used extensively in the mining industry, and in chemical manufacturing. However, they are just as suitable for home use.

JW SMOOTH PVC KNIT WRIST GLOVES

LEATHER GLOVES

Leather work gloves are capable of tolerating some of your most rigorous jobs. Leather helps protect workers' hands from exposures to cold, heat, abrasion, sharp edges, cuts and punctures. It also offers a tolerance to extreme weather conditions. These characteristics make leather an ideal choice for work gloves.

Choosing the right leather glove for the task is ultimately the best way to get the most out of the leather glove you choose.

If the worker's hand protection requires working with rough materials such as wood or metal, then choosing a thick-skinned leather glove will be the best choice for protection from abrasion and cuts.

If the task requires dexterity and tactility, then choosing a thin-skinned leather glove will allow the worker the sensitivity and flexibility he/she needs to perform his/her job.

JW CHROME LEATHER FABRIC BACK GLOVES /30187

SIZES: Standard

LEATHER VS SYNTHETIC LEATHER

Leather gloves perform better in:

- Applications that need flame resistance, like welding or oil and gas
- Heavy-duty abrasive applications such as lumber handling

Leather gloves should be properly cared for, colder weather and increased moisture in the air can turn leather gloves rigid, cold and damp.

Synthetic leather gloves excel in cold or wet weather. They are lighter, thinner and can dry very quickly. These features make for added comfort and flexibility, without compromising on necessary qualities like abrasion and tear resistance. Multi-layer construction means that synthetic leather gloves also boast lots of cool extra features over their natural leather counterparts.

JW SYNTHETIC LEATHER MECHANICAL GLOVES

/30105

SIZES: 8 9 10

COLOURS: Black

FEATURES: Synthetic leather palm with high abrasion resistance level combines with breathable, durable and washable performance / Two layers stretch-spandex back offers exceptional dexterity / Shirred elastic back for snug fit / Good impact protection / Suitable for outdoor machinery, mining, automotive industry / Velcro closure / Wrist length

EYE PROTECTION

Comfortable, durable, eyewear designed to reduce the risk of injury.

Our range of eye protection meets all safety standards and offers you protection from dust, chemicals, sparks, flying objects, flames, strong glare and fogging.

PROTECTION FOR YOUR EYES AND FACE

People use eye protection if their work exposes their eyes to potential threats and dangers. A perfect example is the danger many welders face when exposed to flames, flying particles, strong glare and shooting sparks. It is important for them to use specialised welding goggles or a welding mask to shield their eyes from these threats and dangers.

Many manufacturing companies use infectious fluids, chemicals, acids and other caustic liquids that may strike the worker's eyes, thus the need for proper eye protection.

Choosing the right eye protection is a necessity to avoid eye destruction!

SAFETY SPECTACLES - available in many styles, but do not keep out dust, gas or molten metal. They are intended to protect against low energy impact debris and objects.

SAFETY GOGGLES - protection against a variety of hazards, including dust, smoke, fine particles, chemical splashes, sprays, gasses and low to medium energy impact debris and objects.

SAFETY SPECTACLES

for eye protection against:

- Low energy impacts (45 m/s)
- Harmful rays (ultraviolet / infrared)

SAFETY GOGGLES

for eye protection against:

- Medium energy impacts (120 m/s)
- Dust, fine particles or harmful chemicals
- Molten metals and hot solids
- Harmful rays (ultraviolet / infrared)

CHOOSE YOUR TYPE OF PROTECTION

WHAT IS THE MAIN RISK IN YOUR WORKPLACE?

JW RAPTOR

MEN'S CHEST

A

Standing naturally, measure around the fullest part of the chest, keeping tape under arms and around shoulder blades.

MEN'S WAIST

B

Measure around the waist, keeping one finger between the tape and body. Measure over the shirt (not trousers) at the position you would normally wear your trousers.
